

Clover plus Commerce Sync

A Must Have for Small Business

Commerce Sync **saves time** by transferring Clover sales into QuickBooks and Xero - **automatically, every day, with no extra work for your merchants.** We make your hard-earned merchant portfolio larger and help keep it *yours*.

How do you sell Commerce Sync? Ask two simple questions.

Do you use QuickBooks or Xero?

Commerce Sync is compatible with:

- All supported versions of QuickBooks Desktop: Pro, Premier and Enterprise
- QuickBooks Online (all versions)
- Xero (all versions)

Commerce Sync also works with **all Clover plans and devices** (Station, Station 2018, Flex, Mobile, Mini and Go)

...and what our merchants are saying

“Commerce Sync has **saved** us many, **many hours of manual entry.** Customer support has been **great!**”

- **Scott C., Banana Box Market**
Clover merchant,
Commerce Sync customer since February 2015

What your merchants will love...

- Saving **300 hours** per year - **or more**
- No more **manual entry**
- No more **costly bookkeeping errors**
- Access to a **team of experts** via **phone, chat** and **email**

Do you want to save time by automating your bookkeeping?

Commerce Sync lets merchants streamline their accounting and focus on doing what they do best: **running their business.** Great for:

- Restaurant and Retail: tax (including combined & multiple rates), tips, discounts & all tenders
- Auto-income tracking by Category or Label
- Businesses with multiple Clover locations
- Unlimited historical transfer of Clover sales
- **New Feature! Suspense Account:** any and all discrepancies are automatically placed into a special account to avoid disruption of your sync
