

Automated Xero and QuickBooks Bookkeeping

Double-entry doesn't mean double effort for small businesses in the UK. Commerce Sync saves time and money by transferring Clover sales into Xero and QuickBooks Online – automatically, every day, with no extra work.

Is Commerce Sync right for you?

Ask two simple questions.

Do you use Xero or QuickBooks?

Commerce Sync works with both in the United Kingdom. All Clover plans and devices as well.

Do you want to automate your bookkeeping?

Commerce Sync empowers merchants to simplify their accounting and focus on what they excel at – **their business**. Especially helpful for:

- Restaurant and Retail: VAT inclusive, Tips, Discounts
- Businesses with multiple Clover locations
- Automated income tracking by Category / Label
- Automated single-source Daily Summary
- Dead simple setup in two minutes or less with dedicated customer support.

What you will love...

- Recovering **300 hours** in a year
- No more **manual entry**
- No more **costly bookkeeping errors**

...and what our merchants are saying

"I am so glad that technology has arrived... I have a life now!"
