

Upgrade Clover with Commerce Sync, your Automated Bookkeeper

Commerce Sync saves time by transferring Clover sales into QuickBooks and Xero - automatically, every day, with no extra work for your merchants. We make your hard-earned merchant portfolio larger and help keep it **yours**.

How do you sell Commerce Sync? Ask two simple questions.

Do you use QuickBooks or Xero?

Commerce Sync is compatible with:

- All supported versions of QuickBooks for Windows (Desktop): Pro, Premier and Enterprise
- QuickBooks Online (all versions)
- Xero (all versions)

Do you want to automate your bookkeeping?

Commerce Sync empowers merchants to simplify their accounting and focus on what they excel at - **their business**. Especially helpful for:

- Restaurant and Retail: Tax, Tips, Discounts & more
- Businesses with multiple Clover locations
- Automated income tracking by Category / Label
- **New Feature! Sales by Customer:** perfect for service-based businesses, such as construction, salons and health / wellness providers

What your merchants will love...

- Recovering **300 hours** in a year
- No more **manual entry**
- No more **costly bookkeeping errors**

...and what our merchants are saying

"I am so glad that technology has arrived...
I have a life now!"

- Mike H., Mike Harbour Golf

*Clover merchant and Commerce Sync
customer since December 2014*
